Atlas Copco's range of medium-duty hydraulic breakers was developed for a wide variety of applications. The combined gas/oil power principle means they are both powerful and highly flexible with regard to oil flow rate and pressure. Their technically advanced percussion mechanism, e.g. with long piston stroke, reduce unavoidable vibrations far more efficiently than many other makes.

### Features & benefits

- VibroSilenced Plus system
- ContiLube II
- StartSelect
- AutoControl
- Energy recovery
- Percussion chamber ventilation

### Applications

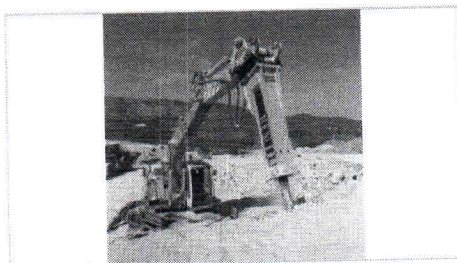

- Demolition
- Foundation work
- Tunneling
- Trenching
- Underwater work
- Boulder size reduction in quarries

## Technical data

Units: **Metric** **Imperial**

Technical Specifications	
Carrier weight class	41888 - 70547 lb
Service weight **	3748 lb
Oil flow	34.3 - 44.9 gpm
Operating pressure	2320 - 2610 psi
Impact rate	320 - 640 blows/min
Working tool diameter	5.51 inch
Working length of tool	25.59 inch
Max. hydraulic input power	51 kW
Sound power level guaranteed	117 dB(A)
Sound pressure level (r=10m) ***	87 dB(A)
